

## **BSC Training Course: Earth Sciences Discovery Days (ESD2)**

### **Objectives**

To gain an understanding of what research is conducted in the Earth Sciences department and how to initiate new collaborations. What to look for and what to avoid. Including a scientific pitch workshop to begin growing your scientific network.

### **Requirements**

#### **Prerequisites:**

Undergraduate degree required

### **Learning Outcomes**

Participants will be able to understand the types of research conducted within the Earth Sciences department and identify potential opportunities for collaboration. Identify key factors to consider when initiating new research collaborations, including best practices and common pitfalls to avoid. They will learn to develop and deliver an effective scientific pitch, enhancing their ability to communicate research ideas and expand their professional network.

#### **Academic Staff**

#### **Conveners**

Amirpasha Mozaffari, Recognized Researcher, BSC-ES, Computational Earth Sciences

Sophie Belman, Recognized Researcher, BSC-ES, Global Health Resilience Group

Daniela Lührsen, Data Scientist, BSC-ES, Global Health Resilience Group

**Course Lecturers:** Earth Sciences Department researchers involved in the group of Computational Earth Sciences, Atmospheric Composition, Global Health Resilience, Climate Prediction and Earth System Services.

## Course Lecturers

Francisco Doblas-Reyes  
Isadora Jimenez  
Marc Prohom  
Miguel Castrillo  
Mario Acosta  
Oriol Jorba Casellas  
Carlos Perez Garcia Pando  
Pablo Ortega  
Markus Donat  
Rachel Lowe  
Albert Soret
