Objectives

To explain the different components that MareNostrum 4 is composed, which were the design decisions taken and why.
To explain how the system administration is taken in this Petaflop system.

Requirements

Prerequisites: Experience on Linux system administration is required.

PLEASE BRING YOUR OWN LAPTOP.

Learning Outcomes

Learning Outcomes: The students will learn how MareNostrum IV is organized and how it works. This can have some insights and ideas about how to manage clusters of thousands of nodes in a HPC or no-HPC environment.

Academic Staff

Course convener: Javier Bartolomé
