PATC Systems Workshop: Programming MareNostrum III

Objectives

Objectives: The objective of this course is to present to potential users the new configuration of MareNostrum and an introduction on how to use the new system (batch system, compilers, hardware, MPI, etc.). Also, it will provide an introduction about RES and PRACE infrastructures and how to get access to the supercomputing resources available.

Learning Outcomes: The students who finish this course will know the internal architecture of the new MareNostrum, how it works, the ways to get access to this infrastructure and also some information about optimization techniques for its architecture.

NOTE: PATC courses do not have registration fee.

Registration for this course is now open.

PLEASE BRING YOUR OWN LAPTOP.

Recommended Accommodation:

Please follow the link for a map of some local hotels.
