

## 17th RES Users Conference

The Spanish Supercomputing Network (RES) organises the Annual RES Users Conference to inform about RES news and to provide information of interest about access to its resources and about the European HPC ecosystem. This event is a meeting place for all users, support technicians, the access committee and the users committee.

The conference will take place on Wednesday 13th & Thursday 14th September.

The conference will be structured in thematic tracks that will verse on the most prominent topics related to the HPC and innovation ecosystem in Spain and Europe:

- **Processors Made-in Europe**
  - Manufacturing European processors (chips) for a technological sovereignty
  - RISC-V Training
- **Technology and energy efficiency**
  - Energy optimisation and saving in HPC centres
  - Programming tools and workflows in science
- **Artificial Intelligence** in scientific fields
- **Quantum computing** and its applications (Quantum Spain project).

In addition, on Tuesday 12 September, some of our HPC suppliers will offer training workshops for all interested users.
