Efficiently running SpMV on long vector architectures

URL: https://dl.acm.org/doi/10.1145/3437801.3441592

Authors: Gomez, Constantino / Mantovani, Filippo / Focht, Erich / Casas, Marc

Research Lines: Mobile and embedded-based HPC

Publication: Proceedings of the 26th ACM SIGPLAN Symposium on Principles and Practice of Parallel Programming (PPoPP)

Place Published: ACM Digital Library

Volume / Number / Pagination: 1 / 26 / 292-303

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
