

[Inici](#) > Established and emerging trends in computational drug discovery in the structural genomics era.

Established and emerging trends in computational drug discovery in the structural genomics era.

Authors: [Taboureau, Olivier](#) / [Baell, Jonathan](#) / [Fernández-Recio, Juan](#) / [Villoutreix, Bruno](#)

Publication: Chemistry & biology

Volume / Pagination: 19 / 29-41

Paraules clau: [Computational Biology](#), [Computer Simulation](#), [Drug Discovery](#), [Genetic Variation](#), [Genomics](#), [Humans](#), [Ligands](#), [Protein Interaction Mapping](#), [Proteins](#), [Software](#)
