Pushing the Limits of Computational Structure-Based Drug Design with a Cryo-EM Structure: The Ca²⁺ Channel γ -1 Subunit as a Test Case

URL: <http://pubs.acs.org/doi/10.1021/acs.jcim.8b00347>

Authors: [Kotev, Martin](#) / [Pascual, Rosalia](#) / [Almansa, Carmen](#) / [Guallar, Victor](#) / [Soliva, Robert](#)

Publication: Journal of Chemical Information and Modeling

Volume / Pagination: 58 / 1707 - 1715

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
