

<u>Inici</u> > Recent EUROfusion Achievements in Support of Computationally Demanding Multiscale Fusion Physics Simulations and Integrated Modeling

## **Recent EUROfusion Achievements in Support of Computationally Demanding Multiscale Fusion Physics Simulations and Integrated Modeling**

URL: http://www.tandfonline.com/doi/full/10.1080/15361055.2018.1424483

Authors: Voitsekhovitch, I / Hatzky, R / Coster, D / Imbeaux, F / McDonald, D.C / Fehér, T.B / Kang, K.S / Leggate, H / Martone, M / Mochalskyy, S / Sáez, Xavier / Ribeiro, T / Tran, T.M / Gutierrez-Milla, Albert / Aniel, T / Figat, D / Fleury, L / Hoenen, O / Hollocombe, J / Kaljun, D / Manduchi, G / Owsiak, M / Pais, V / Palak, B / Plociennik, M / Signoret, J / Vouland, C / Yadykin, D / Robin, F / Iannone, F / Bracco, G / David, J / Maslennikov, A / Noé, J / Rossi, E / Kamendje, R / Heuraux, S / Hölzl, M / Pinches, S.D / da Silva, F / Tskhakaya, D

Research Lines: Computational Modeling for Fusion

Publication: Fusion Science and Technology

Place Published: Taylor & Francis

Volume / Number / Pagination: 74 / 3 / 186-197

**Paraules clau:** <u>code optimization and parallelization</u>, <u>High-performance computer</u>, <u>infrastructure for</u> <u>integrated modeling</u>

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
