

## 1st BSC Doctoral Symposium

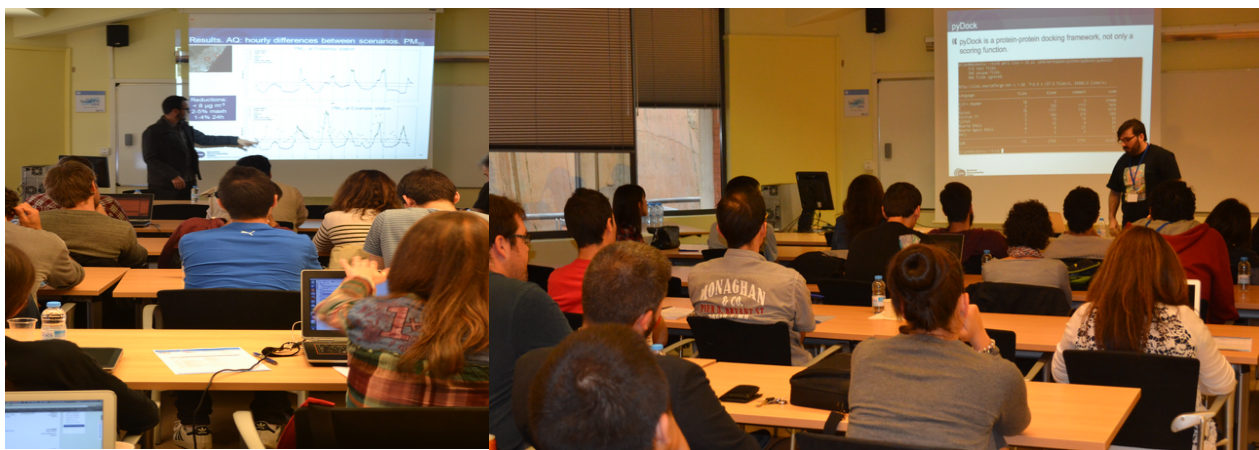

The aim of the Doctoral Symposium is to provide a framework to share research results of the thesis that are being developed by PhD students at BSC as well as to offer training sessions on topics and skills that may be useful to future researchers and professionals.

To reach these goals, PhD students and PostDoc researchers at BSC will share their experience and findings and also lecturers will deliver talks on research skills.

We welcome the participation of all Supervisors and BSC researchers,

Education and Training Team.
