

[ONLINE] PATC Systems Workshop: Petaflop System Administration; Marenostrum 4 @ BSC

Objectives

The objective of this course is to explain the different components of MareNostrum 4 and to understand the design decisions taken. We also analyze how the system administration is taken in this Petaflop system.

Requirements

Prerequisites: Experience on Linux system administration is required.

PLEASE BRING YOUR OWN LAPTOP

Learning Outcomes

Learning Outcomes: The students will learn how MareNostrum IV is organized and how it works. This can have some insights and ideas about how to manage clusters of thousands of nodes in a HPC or no-HPC environment.

Academic Staff

Course convener: Javier Bartolomé
