

## Translational and integrative Bioinformatics Postgraduate course

The INBIOMEDvision postgraduate course on Translational and Integrative Bioinformatics, a 1-week course, will be held in Barcelona (Spain) in April 2013. It is targeted to students with background on Bioinformatics, Medical Informatics, Medicine, Biology, Chemistry, Pharmacy, Mathematics, Physics, Biomedical Engineering or related fields.

Applications are now open!

Read more about the Course, Application and Grant opportunities at [www.inbiomedvision.eu/activities.html](http://www.inbiomedvision.eu/activities.html)

The course is organised by INBIOMEDvision in collaboration with Pompeu Fabra University (UPF), Barcelona Supercomputing Center (BSC), Spanish Technological Platform for Innovative Medicines (PTEMI), and The Spanish Institute of Bioinformatics (INB).

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
