

[Atmospheric dust modeling from meso to global scales with the online NMMB/BSC-Dust model ? Part 1: Model description, annual simulations and evaluation](#)

Authors: [Pérez, C](#) / [Haustein, Karsten](#) / [Janjic, Z](#) / [Jorba,](#) / [Hunees,](#) / [Baldasano, Jose](#) / [Black, T](#) / [Basart, Sara](#) / [Nickovic, S](#) / [Miller,](#) / [Perlwitz,](#) / [Schulz,](#) / [Thomson,](#)

Publication: Atmospheric Chemistry and Physics Discussion

Place Published: GERMANY

Volume / Pagination: 11 / 17551-17620

Palabras clave: [CGL2008-02818](#), [CGL2010-19652](#), [Consolider](#), [Dust Regional Atmospheric Model](#), [Mesoscale modelling](#), [Model evaluation](#), [NMMB-BSC model](#)
