

A Directive-Based Approach to Perform Persistent Checkpoint/Restart

URL: <http://ieeexplore.ieee.org/document/8035111/>

Authors: [Maroñas, Marcos](#) / [Mateo, Sergi](#) / [Beltran, Vicenç](#) / [Ayguade, Eduard](#)

Research Lines: [HPC Software Optimization](#) / [Resilient architecture and runtimes](#)

Publication: The 2017 International Conference on High Performance Computing & Simulation (HPCS2017)

Palabras clave: [checkpoint/restart](#); [resiliency](#); [fault tolerance](#); [exascale](#); [programmability](#); [programming models](#)
