DMA-circular: an enhanced high level programmable DMA controller for optimized management of on-chip local memories

URL: http://doi.acm.org/10.1145/2212908.2212925

Authors: Vujic, Nikola / Alvarez, Lluc / González, Marc / Martorell, Xavier / Ayguade, Eduard

Publication: Proceedings of the 9th conference on Computing Frontiers (CF)

Place Published: New York, NY, USA

Pagination: 113?122

Palabras clave: DMA, local memories, programmability

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
