

## A framework for evaluating comprehensive fault resilience mechanisms in numerical programs

**URL:** <http://dx.doi.org/10.1007/s11227-015-1422-z>

**Authors:** [Chen, Sui](#) / [Bronevetsky, Greg](#) / [Li, Bin](#) / [Casas, Marc](#) / [Peng, Lu](#)

**Publication:** Journal of Supercomputing

**Volume / Pagination:** 71 / 2963-2984

**Palabras clave:** [Fault resilience](#), [high-performance computing](#), [Numerical errors](#), [Soft faults](#)
