

## [Towards limiting the impact of timing anomalies in complex real-time processors](#)

**URL:** <https://dl.acm.org/citation.cfm?id=3287655>

**UPCommons Handle URL** <https://upcommons.upc.edu/handle/2117/133900>

**Authors:** [Benedicte, Pedro](#) / [Abella, Jaume](#) / [Hernandez, Carles](#) / [Mezzetti, Enrico](#) / [Cazorla, Francisco](#)

**Publication:** Proceedings of the 24th Asia and South Pacific Design Automation Conference on - ASPDAC '19

**Place Published:** ACM

**Pagination:** 27-32

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
