

[Massive Computation for Ultrafast Molecular Breaking \(MACUMB\)](#)

The Scientific Workshop on **Massive Computation for Ultrafast Molecular Breaking**, MACUMB 2017, will be held in the [Facultad de Ciencias](#), Universidad Autonoma de Madrid, Spain. It is supported by the Spanish Supercomputing Network (RES).

The meeting combines scientific lectures with practical sessions in computer rooms. This workshop seeks for the scientific exchange on the state-of-the-art software to explore molecular dynamics.

The [registration](#) is free and it will close on May 15, 2017.
