BSC-CNS hosts **MareNostrum**, the most powerful supercomputer in Spain.

BSC is glad to allow visits to the MareNostrum supercomputer housed in the Torre Girona chapel, always with previous appointment.

The visit, led by personnel from the center, lasts 30-60 minutes and consists of a video presentation of BSC and the supercomputer, followed by a tour of the facilities.

We can schedule a visit for you on Monday - Friday (09h - 19h)

[Plan your visit to MareNostrum](https://www.bsc.es/discover-bsc/visit-our-supercomputer)

For high school groups, we have additional information for teachers in order to prepare the tour:
