Barcelona is the capital of Catalonia and has more than 1.5 million inhabitants. Catalonia is an Autonomous Community of Spain located in the north east of the Iberian Peninsula that is considered to be a "historical nation". Barcelona is a modern, cosmopolitan and very dynamic city. Its metropolitan area is the sixth largest in the European Union in terms of population, with more than five million inhabitants. It is a comfortable city, made to measure by people for people.

Life takes place against a backdrop of architectural gems ranging from gothic to art nouveau and from Gaudi’s masterpieces to daring and original urbanism.

Sports enthusiasts can practise all kinds of outdoor (and indoor) activities throughout the year thanks to the pleasant climate. For spectators, the city is home to Barcelona Football Club – the world's most successful soccer team in recent years – and is the location of Spain's premier Formula 1 motor racing circuit. It also boasts a number of world-class golf clubs and, as a result of hosting the 1992 Olympic Games, wide-ranging athletics facilities.

Students, researchers and business people worldwide are lured by Barcelona's numerous attractions, warm weather and unbeatable location by the sea. The short distances and the excellent transport network make outings a luxury within the reach of all its citizens. Barcelona's history as a port has bequeathed it an open, welcoming culture, reflected in the fact that nearly 20% of its inhabitants are foreigners.
