Research Line Lead

JORGE EJARQUE
RESEARCHER

Computer Sciences - Workflows and Distributed Computing

View Research Lines
- Application Management for Distributed Computing
- Integration of Programming Models and Persistent Storage Systems
- Programming Models and Runtimes for Distributed Computing

Research Line Department / Group Leaders
ROSA M BADIA

WORKFLOWS AND DISTRIBUTED COMPUTING GROUP MANAGER

Computer Sciences - Workflows and Distributed Computing

View Research Lines

- Application Management for Distributed Computing
- Integration of Programming Models and Persistent Storage Systems
- Programming Models and Runtimes for Distributed Computing

Research Line Staff
