On the adequacy of lightweight thread approaches for high-level parallel programming models
Future Generation Computer Systems
Castelló, A., R. Mayo, K. Sala, V. Beltran, P. Balaji, and A. J. Pena

GLT: A Unified API for Lightweight Thread Libraries
23rd International European Conference on Parallel and Distributed Computing (Euro-Par)
Castelló, A., S. Seo, R. Mayo, P. Balaji, E. S. Quintana-Ortí, and A. J. Pena

GLTO: On the Adequacy of Lightweight Thread Approaches for OpenMP Implementations
46th International Conference on Parallel Processing (ICPP)
Castelló, A., S. Seo, R. Mayo, P. Balaji, E. S. Quintana-Ortí, and A. J. Pena

A review of lightweight thread approaches for high performance computing
IEEE Cluster
Castelló, A., A. J. Pena, S. Seo, R. Mayo, P. Balaji, and E. S. Quintana-Ortí

On the Use of Lightweight Threads
Twelfth International Summer School on Advanced Computer Architecture and Compilation for High-Performance and Embedded System (ACACES)
Castelló, A., A. J. Pena, S. Seo, R. Mayo, P. Balaji, and E. S. Quintana-Ortí
