Fabrizio Gagliardi
ACM Europe Policy Committee Chair & BSC

Short introduction to Heidelberg Laureate Forum
In May 2013, the Heidelberg Laureate Forum Foundation was formally established as the supporting organization for the annual Heidelberg Laureate Forum.
The Heidelberg Laureate Forum Foundation (HLFF)

• Annually organizes the Heidelberg Laureate Forum.
• Funded by the Klaus Tschira Stiftung (KTS), which promotes natural sciences, mathematics and computer science.
• Is supported by two Scientific Partners, Heidelberg University and the Heidelberg Institute for Theoretical Studies (HITS).
The Heidelberg Laureate Forum Foundation and Association for Computing Machinery (ACM)

• ACM is a founding partner of HLF.

• ACM is responsible for bringing the Turing laureates in.

• ACM is responsible for selecting the computer science students.
HLFF invites the recipients of the Abel Prize, the ACM A.M. Turing Award, the ACM Prize in Computing, the Fields Medal, and the Nevanlinna Prize to join 200 carefully selected young researchers.
Event that connects promising young researchers in mathematics and computer science with the top scientists in their fields.
The Heidelberg Laureate Forum is a one-week event combining scientific, social and outreach activities.
An Innovative Event for Mathematicians and Computer Scientists

The Heidelberg Laureate Forum connects highly talented young researchers (undergraduates, PhD candidates, and postdocs) from all over the world with the recipients of the highest awards in computer science and mathematics, awarded by the Association for Computing Machinery (ACM), the International Mathematical Union (IMU), and the Norwegian Academy of Science and Letters (DNVA).
